

PrimeDELIVERY™ allows pharmacies a tool for managing customer deliveries with electronic signature capture delivery confirmation.

PrimeDELIVERY™ Key Features

-  Collect and manage patient signatures at the pharmacy drive-thru, curbside, or delivers to patient's homes.
-  Helps with 'line-busting,' shortening, or eliminating your checkout line. Pull patients aside from the line to help them or just get their transaction staged so that the final checkout process goes much faster.
-  Works with Android 7+ or Apple iOS 10+ device with data connection and 16 GB of storage (5" + screen for phones, 7" + screen for tablets). 4G LTE or higher is recommended.
-  Capture and collect HIPAA compliant signatures in PrimeRx™.
-  Pull up delivery information on the road through the driver's device by scanning the Rx number or facility code.
-  Store patient's delivery history in PrimeRx™.
-  Build and manage multi-store deliveries.
-  Build and store deliver routes within PrimeRx™ delivery dashboard

Pharmacy and Patient Benefits:

- 01. Improved Medication Adherence:** Offering home delivery improves the chances a patient will take their prescribed medication.
- 02. Workflow and Regulatory:** Close your compliance risk by capturing your patients signature.
- 03. Competitive advantage:** Meet growing demand in the marketplace while giving patients easy access to prescription medications.
- 04. Gain Patients, Grow Your Practice:** Improve your business by 6% -8% by offering a delivery system.
- 05. Remote Copay Collection:** Works seamlessly with both PrimeRx™ and PrimePOS™, allowing pharmacies to manage prescription delivery and copay collection.
- 06. Route optimization:** Utilize Google-enabled maps to optimize your delivery routes.
- 07. Patient Lifestyle:** Provides flexibility and convenience to patients with limited mobility, busy lifestyles, or a lack of transportation.
- 08. Confirm Receipt:** No one home to gather a signature from, use your PrimeRx Pharmacy Management System to text your patient's a delivery confirmation text message.
